

> Path Analysis

> Wireless Monitoring

> Activity Alerts

We put the “smarts” into Digital Video Recording systems.

> SmartXi Analytics

Combines the power of analytics (People Counting, Path Analysis, and Dwell Analysis) with the full featured functionality of the SmartCamXi DVR.

> SmartXi Alert

Alerts generated to notify you when assets are removed or inventory levels fall below predefined levels.

> SmartXi Management

Monitors the health and well being of your networked SmartCamXi DVR's. SmartXi Management alerts you of issues before they become a problem.

The ClickIt SmartCamXi™ system is the smartest choice and delivers critical information you can use to improve sales, marketing and everyday business operations.
